

SIP Surge Indicator Panel

Novaris Surge Indicator Panel allows remote monitoring of any Novaris product featuring external alarms. Visual and audible indicators provide at-a-glance surge protection status. Designed to fit in standard 72mm panel meter cutouts, integration into switchboards is simple.

Product Series SIP - 230 Nominal voltage

SIP-110

SIP-230

SIP-24

Electrical Specifications				
Nominal voltage	U ₀	110V / 60Hz	230V / 50Hz	24V AC / DC
Display	LED power and status			
Alarm	SPDT contacts			
Alarm isolation to active circuitry	4kV			
Mechanical Specifications				
Operating temperature / humidity	-40 to +70°C / 5 to 95%			
Connector type	2.5mm ² polarised plug			
Terminal screw torque	0.5Nm			
Environmental	IP 20			
Mounting	Flush panel mount			
Panel cut-out	68mm x 68mm			
Weight	200g			
Dimensions				
Width	72mm			
Height	72mm			
Depth	55mm
